NO MORE FRACTURED LENSES ON RIMLESS FRAMES

Glazing with flexible plastic threads instead of metal screws, washers and nuts.

0772 . .

Easy Kit

- Easy mounting with our recommended tools in the starter set
- The combination brings more flexibility and elasticity
- Reduced risk of lens breaking and a minimum risk of injury for the customer
- The rimless frame will be more decorative and inconspicuous
- Hypo-allergenic and UV resistant
- For all kind of plastic lenses and for many rimless frame models
